

KONA Electric

A single charge takes you a long way.

Revolutionary in every way, your KONA Electric covers 452* km per full charge. That means you can bid adieu to range anxiety and set out for your destination without worrying about running out of charge. It's a green way to save time and money.

Range of  **452*** km

*As certified by ARAI.

Power up, the green way!

It is not only eco-friendly, but also packed with power. Get ready to experience smooth acceleration with KONA Electric, that goes from **0 to 100 kmph** in a matter of **9.7* s**. Go with the sport mode on days when you want an added dose of thrill.

0 to 100 kmph in 9.7* s.

*As per Hyundai internal testing figures.

Charging that suits your schedule.

KONA Electric is fitted with a lithium-ion polymer battery, that offers incomparable performance. Enjoy the flexibility of effortlessly charging it at home or on the go, and drive towards a greener tomorrow.

DC Quick Charger CCS Type 2 – 50 kW

KONA Electric can be charged at DC fast charging stations. Charges up to 80% in less than 1 h (57 min) – It takes less time than your smart phone needs to charge.

AC Wall Box Charger – 7.2 kW

Wall-mounted charger is installed at home or office premises for faster charging. It takes almost 6 h 10 min for a full charge.

Portable Charger along with the Car – 2.8 kW

The car is equipped with an in-cable control box (ICCB) that you can plug right into a normal wall socket. It will take 19 h for a full charge.

Disclaimer: Depending on the condition of high voltage battery, charger specifications, and ambient temperature, the time required for charging the high voltage battery may vary.

Cover every mile, in style.

KONA Electric is a world apart for many reasons, design being one of them. From bold exteriors to sleek LED lighting and fine detailing, it has everything to make it distinctive. Add clever integrated features and functionality, and you get a unique green vehicle that makes a statement.

Modern, clean & integrated front grille design optimized for superior aerodynamics

LED tail lamps

R17 (D=436.6 mm) EV exclusive alloy wheels

ORVM (heated) with electric adjust and folding
